FIREARMS

CARBON REMOVERS

CARBON REMOVERS

Removes carbon buildup that may cause damage to your weapon and impair proper functioning.

LPS 1[®] GREASELESS LUBRICANT & WEAPON WIPE

- Removes carbon build-up that other lubricants can not
- Displaces moisture
- Removes contaminants
- Resists oxidation and varnish formation
- Inverta Spray Valve

Apply product by spraying directly on firearm, soaking, or using the LPS 1[®] Weapon Wipe. Product will go on wet, dries in approximately 30 minutes, leaving a dry lubricating film. In areas of carbon buildup apply LPS 1[®] generously, let soak or clean with brush/patch. Wipe away excess to leave a thin protective film. LPS 1[®] is safe to use on all gun surfaces, and conditions metal to help resist future fouling.

Net Contents	Part #
7" x 10" wipe	00144
11 wt. oz./312 g/379 mL	00116

Also available in trigger, 1, 5, and 55 gallon sizes.

LST PENETRANT

- Penetrates quickly to free stubborn parts
- Displaces moisture
- Resists oxidation and varnish formation
- Inverta Spray Valve

Apply directly on frozen or rusted parts. LST will foam, attacking the rust and corrosion to free the parts. In areas of extreme carbon buildup, simply spray and let soak until parts are free. Continue with cleaning as usual.

Net Content	Part #
11 wt. oz./312 g/382 mL	01916

Also available in 1, 5, and 55 gallon sizes.

LPS 1® & LST CAN BE APPLIED TO THE FOLLOWING:

- All parts including:
- BOLT CARRIER
- BORE
- BUFFER TUBE
- CYLINDER
- FRAME
- INTERNAL COMPONENTS OF UPPER AND LOWER RECEIVER
- MAGAZINE
- MAG WELLS
- PINS
- SLIDE
- SPRINGS
- TRIGGER COMPONENTS

FIREARMS SURFACE CLEANERS

FIREARMS SURFACE CLEANERS

Your firearms require a cleaner that blasts away powder residue, carbon, grease, and oil build-up, leaving the firearm clean and ready for lubrication. Products recommended for the firearms manufacturer.

LPS 1®

WEAPON WIPE

- Cleans, lubricates, and protects
- Displaces moisture
- Resists oxidation and varnish formation

Net Content 7" x 10" wipe Part # 00144

Also available in aerosol, trigger, 1, 5, and 55 gallon sizes.

CFC FREE*

ELECTRO CONTACT CLEANER

- No chlorinated solvents
- No residue
- Cleans completely
- Flushing action cleaner

Net Content 11 wt. oz./312 g/465 mL Part # 03116

Also available in 1, 5, and 55 gallon sizes.

MICRO-X*

FAST EVAPORATING CONTACT CLEANER

- Will not damage polymer-based weapons
- Low odor
- Flushing action cleaner
- Inverta Spray Valve

Net Content 11 wt. oz./312g/466mL Part # 04516

Also available in 55 gallon size.

PRECISION CLEAN*

MULTI-PURPOSE CLEANER/DEGREASER

- Water-base cleaner
- Removes contaminants including fingerprint salts
- Rinses clean

Net Content 28 fl. oz. (828 mL) Trigger Part # 02728

Also available in Ready-to-use aerosol, 55 gallon. In concentrate in 1, 5, and 55 gallon sizes.

PSC*

PLASTIC SAFE CLEANER

- 100% plastic safe cleaner
- Will not damage polymer-based weapons/accessories
- Flushing action cleaner
- Non-flammable

Net Content 18 wt. oz./510 g/412 mL Part # 04620

QB

PRECISION DUSTER

- Quick blast precision duster removes contaminants, dirt, dust, and other soils
- Moisture free
- Ideal for maintaining precision optics
- Removes dry contaminants
- Non-flammable

Net Content 12 wt. oz./340 g/281 mL Part # 05710

*To prevent flash rusting CFC Free, Micro-X, Precision Clean, and PSC all will need a coat of LPS 1® after flushing.

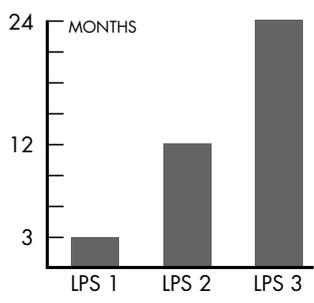

LPS 1® - THE ULTIMATE WEAPON MAINTENANCE PRODUCT

CLEAN, LUBRICATE, and PROTECT
Now in an easy to use, transportable
and disposable package.

DURATION OF INDOOR PROTECTION AGAINST CORROSION

YOUR FIREARMS IN STORAGE

Ideal to protect your firearms from humidity that may cause rust and corrosion, and damage.

LPS 1®*

GREASELESS LUBRICANT & WEAPON WIPE

- Safe on case hardening, bluing, military coatings and plastics
- Reduces wear caused by friction and corrosion
- Displaces moisture
- Conditions metal surfaces
- Does not attract dust
- Short term protection

Net Contents	Part #
7" x 10" wipe	00144
11 wt. oz./312 g/379 mL	00116

Also available in trigger, 1, 5, and 55 gallon sizes.

LPS 2®*

HEAVY-DUTY LUBRICANT

- Coats and lubricates internal parts to prevent binding
- Goes on wet and stays wet
- Provides corrosion protection
- Protects for up to 12 months in storage

Net Content	Part #
11 wt. oz./312 g/369 mL	00216

Also available in trigger, 1, 5, and 55 gallon sizes.

Does not require removal before gun use.

LPS 3®*

PREMIER RUST INHIBITOR

- Soft waxy film protects and prevents metal from corrosion during long term storage

Net Content	Part #
11 wt. oz./312 g/380 mL	00316

Also available in trigger, 1, 5, and 55 gallon sizes.

Easily removed with A-151 or PreSolve®. Available thru your local LPS® industrial supplier. For use on metal parts only.

YOUR FIREARMS IN STORAGE

*Apply to clean, dry weapon and/or accessories. Allow solvents to evaporate before placing weapon in storage.

WORKPLACE HAND CLEANER TOWELS

After cleaning your firearm, use the LPS® Workplace Hand Towels to clean your hands.

- Eliminate the need for soap, water, and a sink
- Pleasant citrus scent
- Disposable
- Fast Acting

Net Contents:
Bucket of
72 towels

Part #:
09200

DRY & WET LUBRICANTS

Multi-use, dry and wet film lubricating technology is ideal for routine firearm conditioning. Will not attract sand, dirt, or fouling, so it helps ensure long-lasting, reliable firearm function.

DRY & WET LUBRICANTS

DRY

LPS 1® GREASELESS LUBRICANT & WEAPON WIPE

- Displaces moisture
- Lubricates and protects
- Will not attract dust
- Goes on wet and leaves a dry film
- Promotes clean bore
- Inverta Spray Valve

Net Contents	Part #
7" x 10" wipe	00144
11 wt. oz./312 g/379 mL	00116

Also available in trigger, 1, 5, and 55 gallon sizes.

FORCE 842® DRY MOLY LUBRICANT

- Extreme-duty lubricant for high temperatures
- Resists high pressure conditions
- Water and chemical resistant
- Prevents galling caused by salt water, powder residue, sweat, and moisture on all types of metal
- Enhances corrosion protection of bluing
- Bonds to any metal surface
- Long lasting lubrication for tight friction points

Net Content	Part #
11 wt. oz./312 g/468 mL	02516

WET

LPS 2® HEAVY-DUTY LUBRICANT

- Does not evaporate
- Resists gumming
- Reduces wear caused by friction and corrosion
- Goes on wet and stays wet

Net Content	Part #
11 wt. oz./312 g/369 mL	00216

Also available in trigger, 1, 5, and 55 gallon sizes.

MAGNUM PREMIUM LUBRICANT WITH PTFE

- High performance PTFE lubricant
- Thin coating for tight tolerances and sliding tracks
- Bonds to metal surfaces
- Acts as a protective coating for metal, plastic and rubber
- Inverta Spray Valve

Net Content	Part #
11 wt. oz./312 g/358 mL	00616

Also available in 5 gallon size.

PSC

LPS 1®

Cleans, lubricates, and protects
Safe on most all gun parts
Penetrates precision mechanisms
Dry film will not attract dust
Displaces moisture
Resists oxidation and varnish formation

LPS 2®

Provides corrosion protection for up to
one year
Lubricates and protects during storage

LPS 3®

Soft waxy film protects and prevents metal
from corrosion during long term storage

LST

Penetrates frozen or rusted parts
Very low surface tension to penetrate even
the finest tolerance crevices

Force 842®

Extreme-duty lubricant for high temperature, high pressure conditions

Magnum

High performance PTFE lubricant

Precision Clean

Water-base cleaner safe on most surfaces

Inhibits flash rusting on freshly cleaned parts

Removes contaminants including fingerprint salts

PSC

Plastic safe cleaner ideal for cleaning electronic accessories

CFC Free

Leaves completely clean, residue-free surface
